**DETAILED ACTION*****Drawings***

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference characters "6" (see paragraph [0026]) and "61" (see paragraph [0028]) have both been used to designate a "zipper tab." Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Objections***

2. Claims 1-3 are objected to because of the following informalities: in claim 1, lines 5-6, the limitation of "holes are provided" should be replaced with --providing holes-- in order to have a recitation of a positive process step. Claims 2-3 are objected to as dependent claims. Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1732

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation " the position adjacent to one end of the tooth-chains " in lines 6-7. There is insufficient antecedent basis for this limitation in the claim because it is not specified which end of the tooth chains Applicant is referring. Claims 2-3 are rejected as dependent claims.

In claim 2, it is unclear whether the limitations of "can be carved" and "can be removed" are positive process steps. It is suggested to replace "can be carved" with --carving-- and "can be removed" with --removing-- in order to provide positive process steps.

#### ***Allowable Subject Matter***

5. Claims 1-3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

#### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 1732
